As the president and chief executive officer of Lahey Clinic, I feel privileged to lead an organization with such an extraordinary history and reputation.

Our multidisciplinary approach to care, introduced by Frank Lahey in 1923, is a recognized best practice in health care today. Patients who come to Lahey benefit from the expertise of multiple specialists working side by side under one roof—a model of care that has been shown to deliver more accurate diagnoses and more personalized treatment plans.

At Lahey, patients and their families also benefit from our sincere commitment to making high-quality care and safety top priorities, and from our efforts to consistently treat each person who comes to us for his or her care with dignity and respect.

I am proud to share that our Nursing Department has achieved Magnet status, a designation that recognizes excellence in nursing care. This is a distinction only 6.4 percent of all hospitals can claim.

Although patient care is front and center at Lahey, we are also committed to advancing research and education. As a research center, Lahey physicians contribute to the development of innovative therapies for the future, and we offer patients access to hundreds of clinical trials for cancer, diabetes, heart disease and other conditions. As an academic medical center, Lahey clinicians teach the next generation of physicians and serve on the faculties at Tufts University School of Medicine, Boston University School of Medicine and Harvard Medical School.

On behalf of the hundreds of physicians and thousands of nurses, therapists, technicians and other staff who make up Lahey Clinic, I invite you to rely on us as your resource for advanced, high-quality medical care. This directory is your guide to our staff and services. For your convenience, we also offer a dedicated physicians’ referral line, available by calling (781) 744-2835.

Thank you for your interest in Lahey Clinic and for entrusting us with the care of your patients. We will partner closely with you to ensure that your patients receive the best possible care and that you are kept well-informed of their status every step of the way.

Please do not ever hesitate to contact me, or any member of the Lahey leadership team, at any time if we can assist you with the care of your patients.

Howard R. Grant, JD, MD
President and Chief Executive Officer

How to Use This Directory

Whether you are a physician seeking to refer a patient for specialty care or a patient requiring a particular service, this directory is designed to help you find the most appropriate specialist for your needs.

This introduction contains helpful advice and phone numbers for physicians referring or transferring patients to Lahey and for patients seeking their own appointments.

The physician profiles are grouped by department, and the departments appear alphabetically (from "Allergy and Immunology" to "Vascular Surgery"). Each section begins with a brief overview of the department's capabilities and areas of special expertise.

Physicians are listed alphabetically within the departmental sections. Each profile details the physician's relevant education and training, board certifications, and areas of expertise. The profiles also indicate the locations at which each physician practices.

In addition, the physician profiles include information provided by the doctors about their ability to speak languages other than English. This does not, however, imply that any particular physician is certified as a medical interpreter.

Following the physician profiles is a short section detailing the multidisciplinary centers and special services offered at Lahey Clinic.

There are two indexes. The first index lists all physicians alphabetically by last name. The second index lists physicians by location.

About Lahey Clinic

Lahey Clinic is a physician-led multispecialty group practice, with its flagship facility based in Burlington, MA. Lahey is known worldwide for innovative technology, complex diagnostic capabilities and leading-edge research.

More than 6,000 people visit Lahey for their health care each day. They travel from every state in the nation and from overseas. A teaching hospital of Tufts University School of Medicine, Lahey offers sophisticated inpatient and outpatient resources in virtually every area of adult medical care.

Lahey Clinic Medical Center in Burlington, MA, includes a 317-bed acute-care hospital, 23 operating rooms, extensive diagnostic facilities, a 24-hour Emergency Room and Level II Trauma Center; and physicians' offices and ambulatory clinics. Hospital and physician services, including laboratory, X-ray and pharmacy, are available under one roof. All inpatient rooms are private with private baths.

Lahey Clinic Medical Center, North Shore, in Peabody, MA, is a full-service medical center featuring a 24-hour Emergency Department, an Ambulatory Surgery Center, and more than 30 medical and surgical specialties. Patients have access to a 10-bed inpatient care unit and various ancillary services, including on-site diagnostic radiology and MRI. After completion of a 65,000 square foot facility and clinical services expansion, Lahey Clinic Medical Center, North Shore, offers even more services in a larger patient- and family-friendly environment.

Lahey Medical Center, Lexington, is a comprehensive health center providing outpatient services for adults in primary care, as well as a range of medical and surgical specialties, including dermatology, gastroenterology, gynecology, neurology, orthopaedic surgery, otolaryngology, physical therapy and rheumatology. Diagnostic resources available in Lexington include laboratory services, X-ray, bone density testing, digital mammography, and an open MRI. The Center for Cosmetic and Laser Surgery and the Multiple Sclerosis Center are also based at the Lexington facility.

Lahey's community group practices are staffed by physicians and allied health professionals in locations from as far as Amesbury and Haverhill in the Merrimack Valley to Beverly on the North Shore and Wilmington in the suburbs northwest of Boston. For a complete list of locations, see the inside back cover. Physicians in these practices are board certified in internal medicine, pediatrics or family practice. They work with local medical resources as appropriate, with access to Lahey Clinic specialists when needed.
Lahey Clinic also offers a number of **satellite specialty care locations** in Massachusetts and New Hampshire to further expand its ability to provide subspecialty care in the fields of cancer, urology and the neurosciences. With practices currently in Concord, MA, and Nashua, Derry, Portsmouth, Dover and Rochester, NH, Lahey brings world-renowned expertise closer to home for local area residents. Physicians in these practices partner closely with the patient’s primary care physician in the local community to ensure the highest level of continuity in care.

**Guide for Physicians**

*For patient information, see the next page.*

**Referring a Patient for Specialty Care**

Physicians and medical staff may initiate a patient referral by contacting the relevant clinical department at Lahey. If you require assistance in selecting the appropriate specialist or to schedule an appointment for your patient, call our Physician Referral Line:

(781) 744-2835 or toll-free (800) 962-1700

**Inpatient Transfer**

**For cardiac transfers:**
Page the cardiac nurse liaison at (781) 256-9999

Lahey’s cardiac liaison coordinates all necessary arrangements for physicians outside of Lahey who have patients they wish to transfer to us for cardiac care. This service is available 24 hours a day, seven days a week. On nights and weekends, the page is answered by an attending physician who expedites the transfer of acute myocardial infarction patients.

**For all other transfers:**
Call (781) 744-5130

Our nursing transfer coordinators will work with you to facilitate every step of the transfer process, from connecting you with our physicians to letting you know the date and time of the transfer.

The Transfer Center is open 24 hours a day, seven days a week. If the nursing coordinators are speaking with other callers, please leave a message, including your phone number. A nursing coordinator will return your call within a few minutes.

**Referring Physician Relations Department**

The Referring Physician Relations Department is available if you require additional information or assistance. This department serves as a liaison between referring physicians and Lahey’s clinical and administrative departments, providing assistance in the following areas:

- Assisting with any referral-related issues
- Enrolling in LaheyView, our Web-based portal to access detailed clinical information
- Scheduling CME speakers and grand rounds
- Providing additional copies of the physician directory

Contact the Referring Physician Relations Department via e-mail: **ReferralServices@Lahey.org**.

**Physicians Practicing Outside the United States**

If you are a physician referring a patient from outside the United States, please refer to Lahey’s Executive and International Health programs, listed under the multispecialty centers section of this directory, for information.
Lahey Clinic

Guide for Patients

Patients can take advantage of Lahey’s superb medical resources simply by calling the location of their choice and making an appointment. If you are not sure which physician or department you need, ask the scheduling coordinator to ensure that you are booked with the appropriate staff members.

- **Lahey Clinic Medical Center (Burlington)**
  Patient Registration and Scheduling:
  (781) 744-8000

- **Lahey Clinic Medical Center, North Shore (Peabody)**
  Patient Registration and Scheduling:
  (978) 977-6336

- **Lahey Medical Center, Lexington**
  Primary Care: (781) 372-7100
  Specialty Care: (781) 372-7144
  Center for Cosmetic and Laser Surgery: (877) 867-0707
  Dermatology: (781) 744-7154

- **Community Group Practices**
  To make an appointment with a physician at one of our community group practices, call the practice directly.
  (Phone numbers are given with each physician’s profile. You may also refer to the list of locations on the inside back cover.)

Online Appointment Requests

Patients can request an appointment via a secure Internet connection for services at most of our locations. Visit www.Lahey.org/Appointments to make a request.

Appointment Reminders

If time permits, we will remind you of your appointment by telephone, e-mail or mail several days before the appointment. The appointment reminder confirms the day, time and location of your appointment.

*Please note:*

- We ask that patients coming to Lahey Clinic Medical Center (Burlington) or Lahey Clinic Medical Center, North Shore (Peabody), for the first time arrive a half hour before their scheduled appointments to allow time to register and establish a medical record.

- We ask patients to bring any pertinent medical records, original X-rays or pathology slides to their visits.

- We ask that patients bring a complete list of prescriptions, over-the-counter medications, vitamins and supplements to every clinical appointment at Lahey Clinic.

Special Assistance

Interpreter Services

Lahey Clinic provides interpreter services at no charge for patients who are non-English speaking, of limited English proficiency, deaf or hearing-impaired. Please notify us of the need for an interpreter when you book an appointment. For more information, contact the coordinator of interpreter services at (781) 744-5404.

*Note:* The physician profiles in this directory include information provided by the doctors about their ability to speak languages other than English. This does not imply, however, that any particular physician is certified as a medical interpreter. If the patient is non-English speaking, of limited English proficiency, deaf, or hearing impaired, you should request interpreter services at the time the appointment is booked, regardless of the languages spoken by the doctor.

Lahey Concierge Services

Lahey Concierge Services, located off of the main lobby of Lahey Clinic Medical Center (Burlington), offers travel assistance to patients, visitors and staff, including discounts at area hotels, airport transportation and access to a full-service travel agency, Great International Travel. Lahey Concierge Services can be reached at (781) 744-8550 from 9 am to 5 pm, Monday through Friday.

International Patients

Patients or referring physicians living outside the United States can make appointments through the Office of Executive and International Health. Their staff work with international patients to evaluate their personal and medical needs and to arrange appropriate appointment schedules for them. Appointments can also be requested through our secure online appointment system, available at www.Lahey.org/Appointments. The Office of Executive and International Health also serves as the point of contact for hotel information, financial estimates, general assistance and information.

Telephone: 011-781-744-8401

See Multispecialty Centers to learn more about the Executive Health and International Health Programs.

www.Lahey.org
Participating Health Insurance Plans at Lahey Clinic

Lahey Clinic participates in most health insurance plans, including Medicare, Massachusetts Medicaid and the managed care plans listed below. Health insurance affiliations may change. Updates to this information can be found in the Patient Information section at Lahey.org. If you have a plan other than those listed, your health insurance may still cover your care at Lahey if you obtain authorization from your managed care plan.

Almost all Lahey sites participate in every health plan listed below. Some health insurance plans use a separate company to manage their mental health benefits. Your health plan can confirm participation if you have a question.

Accepted health care plans include:

- Aetna, Inc.
- Anthem Blue Cross Blue Shield of New Hampshire
- Blue Cross Blue Shield of Massachusetts: all plans, including Blue Choice PPO, HMO Blue, Federal Employee Plan and all out-of-state plans administered by the Blue Card Program
- CIGNA Healthcare of Massachusetts
- Children’s Medical Security Plan (UniCare)
- Commonwealth Care: Neighborhood Health Plan (all services) and Fallon Community Health Plan (tertiary services only)
- Coventry Health Care: including First Health and Healthcare Value Management
- Fallon Community Health Plan (FCHP Commonwealth Care, tertiary services only)
- First Health
- Great-West Healthcare/CIGNA
- Harvard Pilgrim Health Care (except Focus Network and Primary Choice HMO plans)
- Health Net Federal Services (TRICARE)
- Health New England (specialty services only)
- Humana: ChoiceCare Network (PPO only)
- Mass Health Managed Care Program Primary Care Clinician Plan (PCC Plan: except primary care at Lahey Clinic Medical Center (Burlington), Lahey Clinic Medical Center, North Shore (Peabody), and Lahey Medical Center, Lexington)
- MultiPlan
- MVP Health Care

- Neighborhood Health Plan, including Commonwealth Care plan
- Northeast Healthcare Alliance, PPO (a MultiPlan company)
- Private Healthcare Systems (a MultiPlan company)
- TRICARE (formerly CHAMPUS), Health Net Federal Services
- Tufts Health Plan (except Select Care plan)
- UniCare: Commonwealth Indemnity Plan (GIC members) and Children’s Medical Security Plan
- United Healthcare
- US Family Health Plan (USFHP)/Brighton Marine Health Center
- US Family Health Plan (USFHP)/Martin’s Point (certain specialties)

**International Health Plans**

See the International Medicine Health listing in the multispecialty centers section for information regarding international health plans accepted at Lahey.
Locations and Directions
For directions to any location, visit our Web site, www.Lahey.org, or call (781) 744-8150.

Lahey Clinic Medical Center (Burlington)
41 Mall Road, Burlington, MA 01805
Main Switchboard: (781) 744-5100

From Route 128/I-95 South, take Exit 33B. Go straight through the lights onto Mall Road. Once you are on Mall Road, Lahey Clinic Medical Center is 0.7 miles on the left.

From Route 128/I-95 North, take Exit 33B onto Cambridge Street (Route 3A). At the first light, turn left onto Mall Road. Once you are on Mall Road, Lahey Clinic Medical Center is 0.7 miles on the left.

Patients and visitors to the main facility must park in the parking garage or use valet parking. The garage is located directly next to the medical center's main entrance. Trump Building parking is designated paid parking for patients visiting Radiation Oncology and Behavioral Medicine only. For patients visiting Allergy or Ophthalmology at 31 Mall Road, designated spaces are available in that building's parking lot.

From Logan International Airport (Boston), shuttle and limousine services are available. Please contact Lahey’s Concierge Services at (781) 744-8550 for information and scheduling.

Lahey Clinic Medical Center, North Shore (Peabody)
One Essex Center Drive, Peabody, MA 01960
Main Switchboard: (978) 538-4000

From Route 128 North (toward Gloucester), take Exit 25A (Route 114, Salem). Stay right on ramp. Follow the shopping center signs to Essex Center Drive.

From Route 128 South, take Exit 25B (Route 114, Middleton). Take a left at the second traffic light. Enter the shopping center. Take the first left and follow to Essex Center Drive.
Lahey Medical Center, Lexington
16 Hayden Ave., Lexington, MA 02421
Main Switchboard: (781) 372-7000

From Route 128/I-95 North or South, take Exit 29A onto Route 2 East. Follow directions in paragraph below

From Route 2 East, take Exit 53 (Spring Street, Lexington). At end of ramp, go right onto Spring Street. Take the next right onto Hayden Avenue. Lahey Medical Center, Lexington, is less than one mile on the right.

From Route 2 West, take Exit 54A (Waltham Street, Waltham), and stay left. Take a left at the end of the ramp onto Hayden Avenue. Lahey Medical Center, Lexington, is immediately on the left.

From Lexington Center, proceed south on Waltham Street about two miles to Hayden Avenue. Turn right onto Hayden Avenue. Lahey Medical Center, Lexington, is the first building on the left.

Lahey's Department of Allergy and Immunology specializes in the diagnosis and treatment of patients suffering from allergies, asthma and related conditions. Patients are evaluated through detailed histories, physical examinations and, if applicable, breathing and allergy skin tests. Treatment options for allergic conditions include avoidance of allergens, medications to reduce symptoms and, in some cases, allergy injections that can be helpful in controlling the underlying illness rather than just controlling symptoms.

Our physicians, nurses and other health care providers are experts in the testing and treatment of both children and adults. Our certified asthma educators continue to raise the bar in patient care, keeping you informed about treatment options and empowering you when it comes to managing your condition.

Members of the Department of Allergy and Immunology deal with the full range of allergic problems.

**Clinical Interests:**
- adult and pediatric rhinitis/sinusitis
- anaphylaxis
- food allergy
- hay fever
- adult and pediatric asthma
- hymenoptera (bee sting) hypersensitivity
- recurrent respiratory infections
- primary immune deficiency
- drug allergies and other allergic reactions
- urticaria (hives) and angioedema (swelling)

**Clinical Program:**
- Asthma Center
Christina David, MD

Fellowship: Children's Hospital Medical Center (Allergy and Immunology), Boston, MA, 1980-82
Academic Appointment: Assistant Clinical Professor of Medicine, Tufts University School of Medicine
Anesthesiology

Members of the Department of Anesthesiology care for patients undergoing both surgical and nonsurgical procedures and for patients with acute pain disorders. Anesthesia care is provided to nonsurgical interventions such as cardiac electrophysiology, endoscopic, CT and MRI scan procedures and interventional neuroradiology. Our involvement includes preoperative consultation and preparation of patients, intraoperative or intraprocedural administration of anesthetics and monitoring, and postoperative or postprocedural management.

Our interventional pain management specialists have expertise in evaluating and treating chronic pain disorders. For more information, please see the description of the Interventional Pain Management Center.

A few of the current techniques being employed include nerve blocks, epidural steroid injections, radiofrequency ablations and infusion pump implants.

Clinical Interests:

- cardiac anesthesia, including TEE
- transplant anesthesia
- epidural and spinal anesthesia
- nerve block anesthesia, including the use of ultrasound techniques
- acute and chronic pain therapy
- intensive care medicine
- resident, medical student, student nurse anesthetist and paramedic education
- procedural sedation

Medical School: Free University of Berlin, Germany, 1994
Internship: Baystate Medical Center (Surgery), Springfield, MA, 1998-99
Residency: Baystate Medical Center, Springfield, MA, /Tufts University School of Medicine (Anesthesiology), Boston, MA, 1999-2002; Chief Resident, 2001
The Department of Cardiovascular and Thoracic Surgery provides a broad spectrum of services to the adult patient. Lahey's cardiovascular and thoracic surgeons are experts in both traditional and minimally invasive/endovascular approaches, including coronary bypass surgery, valve surgery, surgery of the pericardium and surgical treatment of aortic diseases, and treatment of benign and malignant diseases of the lungs, esophagus and chest wall.

**Clinical Interests:**

- cardiac:
  - coronary artery bypass, including "off-pump" techniques
  - "hybrid" (combined PTCI/CABG) coronary artery revascularization
  - cardiac valve repair and replacement
  - minimal access or "mini-invasive" cardiac surgery
  - ventricular aneurysms
  - thoracic aortic aneurysms and aortic dissection
  - thoracic aortic stent grafts
  - cardiac tumors
  - surgical treatment of atrial fibrillation
  - atrial and ventricular septal defects in the adult patient
  - surgical treatment of constrictive pericarditis and recurrent pericardial effusion
● pulmonary:
  ○ surgical treatment of lung cancer, including multimodality and neoadjuvant therapy
  ○ lung resection for benign disease
  ○ treatment of spontaneous pneumothorax
  ○ chest wall tumors
  ○ removal of mediastinal cysts and tumors
  ○ thymectomy

● esophageal:
  ○ antireflux procedures
  ○ treatment of esophageal motility disorders and esophageal diverticulae
  ○ surgical treatment of esophageal cancer

---

**Diagnostic Capabilities:**

● diagnostic procedures
  ○ bronchoscopy
  ○ mediastinoscopy
  ○ pericardioscopy
  ○ Chamberlain procedure
  ○ video thoracoscopy
  ○ rigid esophagoscopy
Richard S. D'Agostino, MD

Primary Location: Burlington (41 Mall Road)
Phone: 781.744.8681
Fax: 781.744.5641

Joined Staff: 1993
Specialties: Ascending and Aortic Arch Aneurysms; Coronary Artery Revascularization including Off Pump Bypass Surgery; Heart Valve Repair and Replacement; Minimal Access Cardiac Surgery; Pulmonary, Mediastinal and Cardiac Tumors

Medical School: Johns Hopkins University School of Medicine, Baltimore, MD, 1978
Internship: Stanford University Medical Center (General Surgery), Palo Alto, CA, 1978-79
Residency: Stanford University Medical Center (General Surgery), Palo Alto, CA, 1979-83; Stanford University Medical Center (Vascular Surgery), Palo Alto, CA, 1983-84
Fellowship: Stanford University Medical Center (Cardiothoracic Surgery), Palo Alto, CA, 1984-86
Academic Appointment: Assistant Clinical Professor of Cardiothoracic Surgery, Tufts University School of Medicine
Languages: French, Hindi, Urdu

Torin P. Fitton, MD

Primary Location: Burlington (41 Mall Road)
Phone: 781.744.8672
Fax: 781.744.5641

Joined Staff: 2009
Specialties: Aortic Dissection; Aortic/Mitral Valve Repair; Ascending and Aortic Arch Aneurysms; Benign/Malignant Pulmonary Disease; Coronary Artery Bypass; Ross Procedure; Surgical Ventricular Restoration/Ventricular Aneurysms; Valve Replacement; Valve Sparing Aortic Root Replacement

Board Certified: American Board of Surgery, 2007; American Board of Thoracic Surgery, 2010
Medical School: Northwestern University School of Medicine, Chicago, IL, 1999
Internship: Johns Hopkins Hospital (Surgery), Baltimore, MD, 1999-2000
Residency: Johns Hopkins Hospital (Surgery), Baltimore, MD, 2000-06
Fellowship: Johns Hopkins Hospital (Cardiothoracic Surgery), Baltimore, MD, 2006-09
Academic Appointment: Assistant Clinical Professor of Surgery, Tufts University School of Medicine

Syed M. Quadri, MD

Primary Location: Burlington (41 Mall Road)
Phone: 781.744.8570
Fax: 781.744.5641

Joined Staff: 2014
Specialties: Endobronchial (EBUS) and Surgical Staging (Mediastinoscopy) for Lung Cancer; Endoscopic Esophageal Interventions including Dilation and Stent placement; Esophageal Cancer Resection; Mediastinal Mass/Tumour Resection; Minimally Invasive Esophageal Surgery; Minimally Invasive Lung Surgery (VATS); Radical Surgery and Extended Resections for Large, Complex Thoracic Malignancies; Robotic Surgery (da Vinci); Thoracoscopic (VATS) and Robotic Surgery; Tracheal Surgery/Bronchoscopic Interventions including Airway Dilation and Stent Placement

Medical School: McMaster University, Hamilton, Ontario, Canada, 1999
Internship: St. Joseph's Hospital (Surgery), Toronto, Canada, 1999-2000
Residency: Toronto General Hospital (General Surgery & Thoracic Surgery), Toronto, Canada, 2000-05
Fellowship: Toronto General Hospital (Thoracic Surgery), 2005-07
Academic Appointment: Clinical Associate Professor of Surgery, Tufts University School of Medicine

Elliot L. Servais, MD

Primary Location: Burlington (41 Mall Road)

Specialties: Esophageal Cancer Resection; Esophageal Surgery; Extended Resections for Complex Thoracic Malignancies; Mediastinal Mass/Tumour Resection; Pulmonary Nodules; Pulmonary Resection for Lung Cancer; Robotic Surgery (da Vinci); Surgical Resection and Multimodality Treatment of Esophageal Cancer; Thoracic Oncology (including Cancers of Lungs, Esophagus, Mediastinum, Pleura, and Chest Wall); Thoracic Surgery; Thoracoscopic (VATS) and Robotic Surgery; VATS Lobectomy
Board Certified: American Board of Surgery, 1982; American Board of Thoracic Surgery, 1984
Medical School: University of Wisconsin School of Medicine and Public Health, Madison, WI, 1976
Internship: Boston City Hospital and University Hospital (General Surgery), Boston, MA, 1976-77
Residency: University Hospital and Affiliated Hospitals (General Surgery), Boston, MA, 1977-80; Chief Resident, 1981
Fellowship: University of Wisconsin (Cardiothoracic Surgery), Madison, WI, 1981-83
Academic Appointment: Assistant Clinical Professor of Surgery, Tufts
The Department of Cardiovascular Medicine reflects Lahey Clinic's comprehensive approach to diseases of the heart and peripheral vascular system. With subsections specializing in interventional cardiology, noninvasive cardiology, electrophysiology, congestive heart failure and vascular medicine, members work closely with the Department of Cardiovascular and Thoracic Surgery to ensure that a full range of services and capabilities is available.

**Cardiology**

Bruce E. Mirbach, MD, associate chair

Lahey cardiologists offer complete diagnostic evaluation and treatment of patients greater than 16 years of age with all types of heart disease.

**Special Services:**

- Cardiac Catheterization Laboratory
  - coronary angioplasty, valvuloplasty, PFO closure, peripheral vascular intervention
- Cardiac Electrophysiology Laboratory
  - pacemaker
  - automatic implantable cardioverter defibrillator insertion
  - testing and radiofrequency ablation for cardiac arrhythmias
  - robotic-assisted EP procedures
Clinical Interests:

- adult congenital heart disease
- angina
- cardiomyopathy
- coronary artery disease
- diseases of the pericardium
- heart failure
- heart rhythm abnormalities
- hyperlipidemia
- hypertension
- myocardial infarction
- myocarditis
- rheumatic heart disease
- valvular disease

Diagnostic Capabilities:

- Electrocardiographic Laboratory
  - electrocardiography
  - Holter monitoring
  - exercise tolerance test (stress test)
  - exercise thallium and gated blood pool technetium scanning
  - pharmacologic stress PET scanning

- Noninvasive Laboratory
  - echocardiography
  - color Doppler echocardiography
  - transesophageal echocardiography
  - dobutamine echocardiography
  - echo exercise testing
  - 3D echo evaluations

Clinic Programs:

- Cardiovascular Rehabilitation Program
- Anticoagulation Clinic
- Pacemaker Clinic
- Congestive Heart Failure Clinic
- Lipid Clinic
- Arrhythmia Clinic, including AICD, atrial fibrillation
- Syncope Clinic
Vascular Medicine and Hypertension

Nicholas P. Tsapatsaris, MD, associate chair

Vascular medicine specialists deal with the clinical characterization of all vascular diseases (arterial, venous, lymph, cerebral, coronary, pulmonary, aortic, renal and peripheral), the pathogenesis of these disorders (including atherosclerosis, lipid and metabolic disorders, systemic and pulmonary hypertension, lymphedema, thrombosis, vasculitis, and vasospastic disorders), and the diagnostic, therapeutic and preventive approaches to these diseases.

Special Services:

- Interventional services:
  - Peripheral percutaneous transluminal angioplasty for symptomatic relief and limb salvage
  - Local thrombolytic infusion
  - Peripheral atherectomy (rotational and directional)
  - Arterial stent placement

- Renal interventions:
  - Balloon angioplasty
  - Directional atherectomy and stent placement
  - Venous obstruction with local thrombolysis
  - Balloon dilatation and/or stenting
  - Transcatheter pulmonary embolectomy and clot maceration for life-threatening emboli and caval filter placement
  - Stenting of dialysis access stenoses
  - Transcatheter treatment for superior vena cava syndrome
  - Adjuvant imaging with intravascular ultrasound

- Preoperative evaluation of patients with multiple atherosclerotic complications

- Lymphedema treatment
  - Complete decongestive therapy

- Venous thromboembolism assessment management
  - Anticoagulation Clinic

- Cardiovascular disease risk assessment and management
  - Lipid Clinic
Clinical Interests:

- disorders of blood pressure regulation
  - patients with refractory or difficult-to-control hypertension
  - patients with secondary hypertension
  - pheochromocytoma
  - primary hyperaldosteronism
  - renovascular disease
- renovascular hypertension
- orthostatic hypotension
  - standard therapies for this disorder, as well as the investigational agent Midodrine, are available through protocol for appropriate patients.
- disorders of the arterial tree
  - peripheral vascular disease
  - intermittent claudication
  - vasculitides
  - Takayasu disease
  - aortitis
  - Berger's disease
  - giant cell arteritis
  - Raynaud's disease
- disorders of the venous system
  - venous insufficiency
  - varicose veins
  - postphlebitic syndrome
  - thromboembolic disease
  - pulmonary embolism
- disorders of the lymphatic system
  - lymphedema
- diagnosis and management of certain neurological conditions involving the vascular system:
  - transient ischemic attack
  - carotid stenoses
  - stroke in evolution

Diagnostic Capabilities:

- Vascular Laboratory with capabilities to perform duplex ultrasonography of:
  - carotid arteries
  - intra-abdominal blood vessels
  - peripheral arteries and veins

Clinic Programs:

- Raynaud's Clinic
  - focused on the pathogenesis, diagnosis and treatment of disorders associated with Raynaud's disease
- Lipid Clinic
  - includes educational classes on diet and risk factor modification

The Department of Colon and Rectal Surgery at Lahey Clinic is committed to excellence in patient care, innovative surgical techniques, clinical research and medical education, offering a full range of colon and rectal consultations and procedures. Patients have access to the knowledge and expertise of board-certified specialists highly trained in all areas of colorectal surgery.

**Special Services:**
- comprehensive colorectal cancer screening
- advanced endoscopic resection of polyps
- ileoanal pouch procedure/J-pouch
- laparoscopic colorectal surgery
- sphincter salvage surgery for rectal cancer including total mesorectal excision
- transanal endoscopic microsurgery
- Doppler hemorrhoid surgery

**Clinical Interests:**
- benign anorectal disease
  - anorectal abscess
  - fistula
  - fissure
  - hemorrhoidal disease
- diverticulitis
- evaluation and treatment of fecal incontinence
- inflammatory bowel disease
  - Crohn's disease
  - ulcerative colitis
  - ileoanal J-pouch
- minimally invasive colorectal surgery
- laparoscopic surgery
- laparo-endoscopic surgery
- advanced endoscopic resections
  - endoscopic submucosal dissection

Lahey Clinic has a full-service Department of Dermatology that provides medical, surgical and cosmetic dermatology services. This includes general care of skin, hair and nail problems for adult and pediatric patients.

Dermatology offers services at three Lahey locations in northeastern Massachusetts, including Burlington, Lexington and Peabody. The Burlington location for Dermatology is located off-site at 20 Wall Street on the second floor of the Harvard Vanguard building.

Special Services:
- Outpatient Dermatologic Surgery Unit - Mohs Micrographic Surgery
- patch testing for contact dermatitis
- phototherapy
- laser and cosmetic dermatology
- Botox injection
- injectable fillers
- sclerotherapy
- facial resurfacing/rejuvenation
- laser treatment of blood vessels/port wine stains
- sun spots
- fine lines and wrinkles
- tattoos
- Hansen's Disease Clinic

Clinical Interests:
- mycosis fungoides
- pediatric dermatology
- psoriasis
- melanoma
- nonmelanoma skin cancer, including basal cell carcinoma, squamous cell carcinoma and dermatofibrosarcoma protuberans
- vasculitis
- photoaging

The Department of Diagnostic Radiology offers a full range of diagnostic imaging techniques and interventional services covering all organ systems. The department maintains ongoing research partnerships with several high-technology companies for development of systems that apply computer technology to imaging processes. Consultations regarding individual cases are encouraged.

Specialty Areas:
- chest imaging
- abdominal imaging
- musculoskeletal imaging
- cardiac imaging
- neuroradiology
- vascular imaging
- breast imaging

Modalities:
- computed tomography (CT)
- interventional neuroradiology
- vascular and interventional radiology
- digital mammography
- magnetic resonance imaging (MRI)
- nuclear medicine
- positron emission tomography (PET/CT)
- bone density
- diagnostic radiology (X-ray)
- ultrasound
- noninvasive vascular lab
- 3D lab

Locations:
- Lahey Clinic Medical Center, Burlington (imaging services)
- Lahey Clinic Medical Center, North Shore, Peabody (imaging services)
- Lahey Medical Center, Lexington (X-ray, digital mammography and bone density)
- Lahey Billerica (bone density and X-ray)
- Lahey Arlington (bone density and X-ray)
- Lahey Amesbury (bone density)
- Lahey Beverly (bone density)

If you have an emergency, dial 911.

The Department of Emergency Medicine provides 24-hour emergency care for all medical problems, staffed by full-time emergency medicine physicians and nurses.

Lahey is a verified Level II Trauma Center according to the American College of Surgeons (ACS). This verification confirms that a trauma center has demonstrated its commitment to providing the highest-quality trauma care for all injured patients.

The Department of Endocrinology, Diabetes and Metabolism at Lahey is dedicated to delivering high-quality health care to patients with the full spectrum of endocrine and metabolic conditions. These include diabetes and disorders of the pancreas; weight problems; thyroid, parathyroid, adrenal and pituitary diseases; calcium and metabolic bone disorders, including osteoporosis; and male and female hormone imbalance, including sexual dysfunction.

**Clinical Interests:**
- thyroid and parathyroid disease, including thyroid cancer
- osteoporosis screening and treatment
- diabetes mellitus types 1 and 2
- adrenal over- and underactivity
- pituitary tumors and dysfunction
- disorders of sexual function
- kidney stone assessment and medical management

**Diagnostic Capabilities:**
- ultrasound-guided fine-needle aspiration biopsy of thyroid nodules
- dynamic testing of pituitary function
- continuous glucose monitoring and insulin pump management

Lahey's Executive Health Program is designed to help corporations invest in their most valuable asset: healthy senior leadership. The program begins with a comprehensive medical evaluation. Services are added as needed to accommodate each patient's personal requirements. The program adheres to the health and wellness guidelines outlined by the American College of Physicians and the American Heart Association. Executives from more than 65 national and international companies have benefited from the program.

At Lahey Clinic, our staff of physicians, physician assistants, nurse practitioners, registered nurses, clinical pharmacists and support professionals are committed to providing outstanding primary care services. Experts in adult medicine, our primary care providers work together in teams to deliver comprehensive and compassionate care. As recipients of primary care services at Lahey Clinic, our patients benefit by having convenient access to hundreds of world-renowned specialists who, like our primary care providers, work in teams to ensure that each patient’s unique health care needs are met.

Clinical Interests:

- preventive medicine and primary care
- men's health
- diet and fitness
- sports medicine
- heart and lung diseases
- hypertension
- lipid disorders
- cancer screening
- diabetes
- headache
- women's health

The Department of Hematology and Oncology is a combined program offering advanced care for all patients with blood disorders and cancer. We work closely with associated subspecialists throughout the hospital to coordinate and develop state-of-the-art comprehensive diagnostic and therapeutic plans of care, individualized to meet the needs of each patient. Our physicians, nurses and nurse practitioners strive to provide a unique brand of compassionate care within an academic medical center, with the goal of improving the overall experience of the patient with a hematologic or malignant disease.

Multidisciplinary programs in such tumor types as breast, lung, colorectal, liver, pancreas, urologic and gynecologic cancers ensure the best ideas and the most advanced treatment for each of our patients. We offer autologous stem cell transplantation for the treatment of hematologic malignancies and an aggressive interventional oncology approach for localized treatment of many solid tumors.

Our active and growing research focus enables us to offer a wide range of investigational therapies, and we participate in national and international clinical study organizations such as the Southwest Oncology Group (SWOG), the Gynecologic Oncology Group, the National Surgical Adjuvant Breast Program and the American College of Surgeons Oncology Group.

A new integrative medicine initiative is available for patients interested in complementary approaches along with standard care. We are working to develop and enhance programs for our growing number of cancer survivors, to care for them once they have completed their primary therapies.

A Lahey Clinic hospitalist is a physician, board certified in internal medicine, who is responsible for all aspects of your care if you are admitted to the hospital. Hospitalists do not have a clinic practice and are easily available when you and your family have questions or concerns. The hospitalist takes the place of your primary care physician while you are in the hospital.

Lahey's hospitalist group includes more than 20 physicians and several physician assistants. When you are admitted to the hospital, you will be assigned to a hospitalist who will oversee your care from admission to discharge. This doctor will see you daily or more often depending on your needs.

The hospitalist will collaborate with your primary care physician and collect information from your medical record to develop your treatment plan. Hospitalists will also coordinate your care whenever surgeons or other medical specialists are needed. When you are discharged from the hospital, the hospitalist will transfer your care back to your primary care physician and arrange any necessary follow-up appointments.

Begun in 1999, Lahey Clinic's hospital medicine group offers inpatient medical care 24 hours a day, seven days a week, 365 days a year at Lahey's main campus in Burlington, Mass., and Lahey Clinic Medical Center, North Shore in Peabody, Mass. The group is responsible for medical consultation in internal medicine to other services in the hospital. Hospitalists also play an active role in the education of internal medicine residents and medical students from Tufts University School of Medicine.

The hospitalist's expertise and experience in caring for ill and injured patients result in improved quality and efficiency and in reduced length of stay. Benefits of hospitalist care include:

- expedited diagnosis and treatment while you are in the hospital
- improved communication between you and your family and the team of doctors and nurses caring for you
- immediate action if test results are abnormal
- immediate response if an emergency occurs while you are in the hospital
- timely discharge

Hospitalists are also quality and safety leaders who work to reduce the potential hazards of medical care, such as hospital-acquired infections and medication errors. Studies have demonstrated improved clinical outcomes under hospitalist care compared to older models of care.

The Department of Infectious Diseases at Lahey Clinic provides comprehensive evaluation and treatment of patients with infectious diseases, on both an inpatient and an outpatient basis. The physicians and nurses have broad expertise in the diagnosis and treatment of infectious diseases due to bacteria, viruses, fungi and parasites. They work closely with full-service, on-site laboratories specializing in microbiology, immunology and parasitology.

Other areas of expertise include identification and management of the agents of bioterrorism and the prevention and treatment of hospital-acquired infections. Our staff also has a strong clinical interest in patients with fever of unknown origin; bloodstream infections, endocarditis, pulmonary or extra-pulmonary tuberculosis; leprosy or hepatitis; AIDS/HIV; Lyme disease or other tick-borne infections; surgical wound and skin or soft tissue infections as well as infections related to immunosuppressive therapy; and patients with solid organ transplants.

The Interventional Pain Management Center, based in the Department of Anesthesiology, treats patients with acute, chronic or cancer pain. The staff takes the time to fully investigate and understand the cause of an individual’s pain, to treat the pain and to find the best approach to managing it. This includes using the latest diagnostic and therapeutic modalities, such as radiofrequency ablation, spinal cord stimulation, spine injections, Botox injections, chemical neurolysis and implantation of infusion pumps.

Our pain management physicians work closely with referring physicians to develop individualized treatment plans for their patients. The center offers evaluations of all chronic pain conditions and will assist patients in detoxing from opiates using state-of-the-art therapies. When appropriate, our physicians work in close association with specialists in a number of different medical fields. This integrated approach ensures a comprehensive evaluation and treatment plan for each patient.

Losing weight can be one of the most difficult challenges a person can face, and is different for everyone. At Lahey, we understand that. That's why our program offers both medical and surgical weight loss options for our patients, all under one roof.

Lahey’s Medical and Surgical Weight Loss Center offers patients a multidisciplinary team approach to their treatment. Whether a patient chooses the medical or surgical weight loss path, both programs work with specialists in nutrition, psychology and social work to provide patients with the most comprehensive weight loss experience possible, giving each patient better odds of a successful and maintainable outcome.

Because we are part of Lahey Clinic’s health care system, our patients have access to specialists who treat a full range of obesity-related illnesses, such as endocrinologists, pulmonologists and cardiologists. This approach to care ensures that our physicians and other health care providers are collaborating in order to give our patients the best care possible.

Medical School: University of Massachusetts Medical School, Worcester, MA, 2002
Internship: New York-Presbyterian Hospital (Internal Medicine), New York, NY, 2002-03
Residency: New York-Presbyterian Hospital (Internal Medicine), New York, NY, 2003-05; Chief Resident, Memorial-Sloan Kettering Cancer Center, New York, NY, 2005-06
Fellowship: New York-Presbyterian Hospital (Nephrology and Hypertension), New York, NY, 2006-08
The Department of Neurology evaluates and treats the full range of neurological disorders.

Clinical Interests:
- cerebrovascular disease (stroke)
- epilepsy
- sleep disorders
- brain tumors
- Parkinson's disease and other movement disorders
- Alzheimer's disease and the evaluation of the patient with dementia
- multiple sclerosis
- diseases of nerves and muscles
- pediatric neurology
- neuropsychology

Diagnostic Capabilities:
- comprehensive neurophysiological laboratory
  - electromyography (EMG)
  - single-fiber electromyography
  - electroencephalography (EEG)
  - EEG/video monitoring for epilepsy
  - evoked potentials
  - sleep laboratory
  - autonomic testing
  - transcranial Doppler
  - neuropsychological evaluation
Clinic Programs:

- Muscular Dystrophy Clinic
- Curt & Shonda Schilling ALS Clinic
- Epilepsy Clinic
- Sleep Disorders Center
- Cerebrovascular Disease Center
- Center for Cognitive Disorders
- Movement Disorders Center
- MS Center

Neurosurgery

Zoher Ghogawala, MD, chair

The Department of Neurosurgery offers a full range of intracranial, spinal and peripheral nerve operative procedures, with special expertise in brain tumors, cerebrovascular disease, skull base surgery, epilepsy, pain, movement disorders and complex spinal disorders. A multidisciplinary Spine Center evaluates and treats patients with various disorders of the spine and integrates surgery, physical therapy and pain management as appropriate.

Special Services:

- Cerebrovascular, aneurysm and arteriovenous malformation surgery
- Surgery for treatment of brain tumors
  - Resection
  - Stereotactic biopsy
  - Radiosurgery
- Deep brain stimulation techniques for Parkinson's disease and tremor
- Epilepsy surgery
- Complex spinal instrumentation
- Advanced intraoperative monitoring

Clinical Interests:

- Spinal surgery
- Cerebrovascular surgery
  - Interventional neuroradiology
- State-of-the-art treatment of brain tumors
- Radiosurgery
- Pituitary tumors
- Acoustic neuromas
- Skull base tumors
- Multimodality therapy for tic douloureux
  - Microsurgery
  - Percutaneous radiofrequency lesion radiosurgery
Clinic Programs:

- Brain Tumor Clinic
- Spine Center
- Epilepsy Clinic
- Cerebrovascular Disease Center
- Clinical Center for Cranial Base Surgery

Joined Staff: 2013
Specialties: Comparative Effectiveness Research; Complex Spinal Surgery; Image-guided Surgery; Lumbar Spondylolisthesis; Minimally Invasive Spinal Surgery; Reconstructive Spinal Surgery; Spinal Disorders; Spinal Fusion

Medical School: University of Pennsylvania School of Medicine, Philadelphia, PA, 2006
Internship: University of Pennsylvania School of Medicine (Surgery), Philadelphia, PA, 2006-07
Residency: University of Pennsylvania School of Medicine (Neurosurgery), Philadelphia, PA, 2007-13
Fellowship: Pennsylvania Hospital (Complex Spinal Surgery), Philadelphia, PA, 2012
The Department of Ophthalmology at Lahey Clinic is a multispecialty group practice providing care for the full range of vision disorders at Lahey Clinic Medical Center in Burlington; Lahey Clinic Medical Center, North Shore, in Peabody; and Lahey Arlington. Satellite clinics for some subspecialty care are located in Derry, Manchester and Nashua, New Hampshire.

Our mission as a combined team of ophthalmologists, optometrists and technical staff, is the preservation and restoration of vision. Staff rotate between the three facilities, with surgical services performed at a state-of-the art ambulatory surgery center at Lahey Clinic Medical Center, North Shore.

Fellowship-trained ophthalmologists who specialize in cornea, uveitis, refractive surgery, glaucoma, oculoplastics, neuro-ophthalmology and vitreoretinal surgery provide specialized care. Low vision services are also available.

Optical shops are conveniently located in Burlington and Peabody.

An active research program includes studies in glaucoma, cataracts, macular degeneration and diabetic retinopathy.

Clinical Interests:

- comprehensive eye examinations
- contact lens services
- cataract surgery
- specialized intraocular lens for cataract surgery
- corneal diseases and refractive surgery
- glaucoma
- ocular immunology and uveitis
- oculoplastics and orbital surgery
- neuro-ophthalmology
- diseases of the retina and vitreous
  - diabetic retinopathy
  - retinal detachment
  - macular degeneration, holes and puckers

The Department of Orthopaedic Surgery provides comprehensive surgical and nonsurgical care of disorders of the musculoskeletal system. Using a model of subspecialty care, Lahey orthopaedic surgeons provide subspecialty expertise in:

- adult reconstruction (joint replacement surgery)
- sports medicine
- hand surgery
- shoulder and elbow surgery
- foot and ankle surgery
- hip and knee preservation
- orthopaedic traumatology (fractures)
- osteoarthritis early intervention
- general orthopaedics

Otolaryngology/Head and Neck Surgery

Robert W. Dolan, MD, chair

The Department of Otolaryngology/Head and Neck Surgery evaluates and treats disorders of the ears, nose, throat, head and neck.

Special Services:

- laser surgery
- care of the professional voice
- laryngotraceheal resection and reconstruction
- transnasal esophagoscopy
- sialoendoscopy
- transphenoidal surgery
- endoscopic sinus surgery
- mandible reconstruction
- skull base surgery
- audiology section, which provides comprehensive evaluation and rehabilitation services for hearing problems
- otology
- neurotology
- implantable hearing devices
- head and neck oncology
- head and neck reconstruction
- minimally invasive procedures for sleep apnea and chronic sinusitis
- transoral robotic surgery (TORS)
Clinical Interests:

- laryngology
- vocal fold paralysis
- cancer of the head and neck
- sleep apnea and snoring
- spasmodic dysphonia
- parotid tumors and disorders
- sinus surgery
- surgery for snoring
- otology/neurotology
- cranial base tumors
- implantable hearing devices
- head and neck reconstruction
- balance disorders
- disorders of speech and swallowing

Clinic Programs:

- Speech, Voice and Swallowing Center
  - encompassing the services of otolaryngologists and speech pathologists, utilizing sophisticated instrumentation for diagnosis and treatment of vocal and swallowing disorders
- Dysphagia programs
- Cranial Base Center
- Balance Center
- Minimally invasive surgery for sleep apnea and chronic sinusitis
- Implantable hearing devices
- Hearing Aid Center
Timothy D. Anderson, MD

Residency: Boston Medical Center (Otolaryngology), Boston, MA, 2009-13
Fellowship: Massachusetts Eye and Ear Infirmary (Head and Neck Surgical Oncology and Microvascular Surgery), Boston, MA, 2013-14
The Department of Anatomic Pathology specializes in detection and diagnosis of disease through analysis of cell and tissue samples. The pathologists work closely with the clinicians in an effort to provide a clinicopathologic understanding of disease processes. Newer techniques in immunohistochemistry and molecular pathology play an increasingly larger role in the department’s diagnostic armamentarium. We provide intraoperative consultations to assist the surgeons in tailoring an operation to the patient’s need. Our cytology section provides advanced interpretation of fine needle biopsies, often obviating the need for a more invasive operative approach. The department performs an important teaching and quality assurance role through the autopsy service. Members of the department actively participate in multidisciplinary and tumor conferences.

**Clinical Interests:**

- hematopathology
- genitourinary pathology
- breast pathology
- pulmonary pathology
- endocrine pathology
- neuropathology
- immunohistochemistry and molecular pathology
- cytopathology, including interpretation of fine needle aspiration biopsies
- medical renal pathology
- gastrointestinal and liver pathology
- transplant pathology
- dermatopathology

Pediatric and Adolescent Medicine

Pediatric care is available at community group practices in Danvers, Ipswich and Lynnfield. In addition to providing comprehensive preventive and well care, Lahey pediatric and adolescent medicine specialists deal with the full range of pediatric and adolescent medical problems.
Members of the Department of Plastic and Reconstructive Surgery deal with all aspects of plastic, cosmetic and reconstructive surgery.

**Special Services:**
- Cosmetic Surgery
- Hand and Microsurgery
- Skin Rejuvenation

**Clinical Interests:**
- body contouring following bariatric surgery
- cosmetic laser surgery
- cosmetic facial, nasal and eyelid surgery
- breast surgery
  - breast enlargement or augmentation
  - immediate breast reconstruction
  - breast reduction
- hand and wrist surgery
- microsurgery
- peripheral nerve surgery
- laser treatment of cutaneous vascular lesions
- reconstruction after facial paralysis
- scar revision
- reconstruction of chronic and difficult wounds
- skin grafts
- lower extremity reconstruction
- ear reconstruction
David J. Bryan, MD

Academic Appointment: Assistant Clinical Professor of Surgery, Tufts University School of Medicine
The Department of Psychiatry and Behavioral Medicine consists of a multidisciplinary group of psychiatrists, psychologists, advanced practice nurses and clinical social workers. They work closely as a team to provide integrated, evidence-based care for Lahey Clinic patients, offering outpatient assessment and treatment for the full spectrum of psychiatric disorders as well as providing consult/liaison services to inpatients. In addition, the department offers medically ill patients coping assistance in adjusting to chronic medical conditions.

Clinical Interests:
- anxiety disorders
- consultation-liaison
- coping with medical illness
- geriatric psychiatry
- mood disorders
- pediatric psychiatry
- stress-related conditions

Multidisciplinary Team Participation:
- bariatric surgery
- cardiac rehabilitation
- heart failure
- hepatic and renal transplantation
- medical weight management
- sleep disorders

Therapy Groups:
- bereavement/coping with loss
- coping skills group
- health anxiety group
- mood management
- panic group
- securing sobriety
- self-esteem group
- stress management
- weight management

Timothy Liesching, MD, chair

The Department of Pulmonary and Critical Care Medicine provides diagnosis and treatment in every area of pulmonary disease, adult critical care medicine and sleep disorders.

Special Services:

- laser applications and stents for airway disorders
- thoracic endoscopy including bronchoscopy and pleuroscopy
- endobronchial brachytherapy
- asthma center
- lung volume reduction surgery
- sleep disorders

Clinical Interests:

- asthma
- chronic obstructive pulmonary disease (emphysema and chronic bronchitis)
- interstitial lung disease
- lung cancer
- obstructive lung disease
- occupational lung conditions
- sarcoidosis
- smoking cessation
- sleep apnea and other sleep disorders
- all aspects of intensive care medicine, including:
  - acute lung injury, weaning from mechanical ventilation, multi-organ system failure, sepsis, ethical issues of intensive care
- diagnostic and therapeutic bronchoscopy
- pleural diseases

Diagnostic Capabilities:

- Pulmonary Testing Area, which provides a comprehensive resource for testing lung function
- Bronchoscopy Suite
Clinic Programs:

- Pulmonary Rehabilitation Program
- Smoking Cessation
- Asthma Center
- Flight Clinic
- Sleep Disorders Center

Training Programs:

- Fellowship: Pulmonary and Critical Care Medicine
- Fellowship: Sleep Medicine
- Fellowship: Interventional Pulmonology

Lahey's Department of Radiation Oncology is known for its development and use of specialized procedures in the treatment of cancers, including the rotational therapy technique and conformal therapy techniques for protecting radiosensitive normal tissue during treatment. A wide range of specialized modalities is available, including external beam therapy, electron therapy, stereotactic radiosurgery and brachytherapy. Our brachytherapy program includes all modalities: conventional low-dose-rate techniques, I-125 seeds in the treatment of prostate cancer, intervascular brachytherapy for the treatment of restenosis and high-dose-rate brachytherapy.

Special Services:

- three dual energy linear accelerators, including the Varian Trilogy, Varian 21EX and Varian 2100; capabilities include: intensity-modulated radiation therapy (IMRT), image-guided radiotherapy (IGRT) and stereotactic radiotherapy/radiosurgery (SRS)
- Clinac 6/100 radiotherapy unit
- GE Lightspeed RT 4 CT simulator
- Ximatron Simulator
- GammaMed Plus system for high-dose, short-term brachytherapy
- ADAC treatment planning system
- RSA X-Knife fractional stereotactic radiosurgery program
- GammaMed high-dose-rate afterloading brachytherapy program for prostate cancer
- I-125 seed implant program for prostate cancer

Clinical Interests:

- intracavitary and interstitial brachytherapy
- techniques of electron irradiation of the body's skin surface for the treatment of widespread skin malignancies
- three-dimensional conformal treatment planning

Recognized nationally for excellence, Lahey’s Department of Rheumatology strives to provide every patient with a thorough initial exam and diagnosis, followed by a personalized, innovative treatment plan. The Rheumatology team is part of a group of clinicians at Lahey dedicated to the treatment of musculoskeletal disease. When necessary, we consult with our colleagues in endocrinology, physical and occupational therapy, orthopaedic surgery, pain management, hand surgery, and other areas, ensuring that patients receive the most comprehensive care possible.

**Clinical Interests:**

- rheumatoid arthritis
- lung and pulmonary disorders in rheumatic diseases
- systemic vasculitis, including Wegener’s granulomatosis
- osteoarthritis
- psoriatic arthritis
- arthritis associated with inflammatory bowel disease
- tendinitis and bursitis
- joint problems in patients with renal disease
- polymyalgia rheumatica
- systemic lupus erythematosus
- Raynaud’s disease
- gout and other crystal disorders
- scleroderma
- temporal arteritis
- ankylosing spondylitis
- mixed cryoglobulinemia
- polymyositis and dermatomyositis
- reactive arthritis
- antiphospholipid antibody syndrome
- Sjogren’s syndrome

The Department of Surgical Critical Care is comprised of an anesthesiologist, an internist/pulmonologist and a surgeon, who are responsible for providing 24-hour-a-day staff coverage in the surgical intensive care unit.

Department members also include:
Michael S. Rosenblatt, MD, General Surgery
Anthony W. Gray, MD, Pulmonary and Critical Care Medicine

Clinical Interests:

- acute respiratory failure
- sepsis and septic shock
- multiple organ dysfunction syndrome
- nutrition
- computer database development
Jana Hudcova, MD

Primary Location: Burlington (41 Mall Road)
Phone: 781.744.8014
Fax: 781.744.5273

Joined Staff: 2007
Specialties: Anesthesia Liver Transplantation; Sepsis; Surgical Critical Care Medicine
Board Certified: American Board of Anesthesiology, 2013; Subspecialty Certification in Critical Care Medicine, 2007
Medical School: Masaryk University, Brno, Czech Republic, 1982
Internship: St. Anne's University Hospital (Anesthesia), Brno, Czech Republic, 1982-85; Newton-Wellesley Hospital (Internal Medicine), Newton, MA, 2000-01
Residency: New England Medical Center Hospitals (Anesthesiology), Boston, MA, 1999-2000; New England Medical Center Hospitals (Anesthesiology), Boston, MA, 2001-03
Fellowship: Beth Israel Deaconess Medical Center (Critical Care Medicine), Boston, MA, 2006-07
Academic Appointment: Associate Professor of Anesthesiology, Tufts University School of Medicine
Languages: Czech, Russian, Slovak

John M. O'Donnell, MD

Primary Location: Burlington (41 Mall Road)
Phone: 781.744.8014
Fax: 781.744.5273

Joined Staff: 1988
Specialties: Head Injury; Multiple Organ Failure; Respiratory Failure
Board Certified: American Board of Anesthesiology, 1987, 2002; American Board of Internal Medicine, 1979; Subspecialty Certification in Critical Care Medicine, 1989
Medical School: University of Bologna, Italy, 1974
Internship: St. Mary's Hospital (Internal Medicine), Waterbury, CT, 1975-76
Residency: St. Mary's Hospital (Internal Medicine), 1975-77; State University of New York Upstate Medical Center (Neurology), Syracuse, 1977-78; (Internal Medicine), 1978-79; University of Massachusetts Medical Center (Anesthesiology), Worcester, 1984-86
Fellowship: University of Miami, Jackson Memorial Medical Center (Surgical Critical Care Medicine), FL, 1979-80
Academic Appointment: Associate Clinical Professor of Anesthesiology, Tufts University School of Medicine
Members of the Department of Transplantion work as part of a multidisciplinary team, including general surgery, hepatology, nephrology, gastroenterology, oncology and interventional radiology to provide state-of-the-art care for patients with the full spectrum of disorders afflicting the liver, bile ducts, kidneys and pancreas.

Special Services:

- transplantation
  - liver transplantation
  - live donor liver transplantation
  - kidney transplantation
  - live donor kidney transplantation
  - split-liver transplantation

- hepatology and hepatobiliary surgery
  - liver resection
  - hepatic cryosurgery
  - radiofrequency ablation of liver tumors
  - hepatic artery chemoembolization of liver tumors
  - bile duct resection/reconstruction
  - pancreas resection, including pancreaticoduodenectomy ("Whipple" procedure)
  - portosystemic shunting operations, including distal splenorenal shunt
  - TIPS (transjugular intrahepatic portosystemic shunt)
Clinical Interests:

- primary cancer of the liver, including hepatocellular carcinoma and cholangiocarcinoma
- metastatic cancer of the liver, including colorectal, islet cell and carcinoid metastases
- benign tumors of the liver, including hepatic adenoma, focal nodular hyperplasia, cavernous hemangioma and biliary cystadenoma
- bile duct injuries
- bile duct tumors, including Klatskin tumors
- gallbladder cancer
- pancreatic and periampullary carcinoma
- chronic pancreatitis
- acute and chronic liver failure
- familial amyloidosis
- polycystic liver disease
- Budd-Chiari syndrome
- portal hypertension
- type 2 diabetes
- polycystic kidney disease
- IGA nephropathy
- hypertension

Urology

Alireza Moinzadeh, MD, interim chair

Department members evaluate and treat the full range of upper and lower urinary tract disorders.

Special Services:
- extracorporeal shock wave lithotripter
- percutaneous nephrolithotomy and conventional kidney stone surgery
- surgery of urologic malignancies
  - YAG laser therapy for superficial and deep-seated bladder cancers
- alternatives to prostatectomy
- new bladder construction
- laparoscopic surgery
- robotic surgery

Clinical Interests:
- adrenal disorders
- sexual medicine
- urinary incontinence
- renal stone disease
- renovascular hypertension
- urologic malignancies-kidney, bladder, prostate, testes and penile
- prostate disorders
- reconstructive surgery
- vasectomy and vasovasostomy
- male infertility
- urethral strictures
- autotransplants

Clinic Programs:
- Center for Stone Disease
- Center for Sexual Medicine
- Center for Urinary Continence
- Center for Prostate Disease
- Center for Reconstructive Urologic Surgery
- Center for Minimally Invasive Urologic Surgery
- Center for Urologic Cancers

The Department of Vascular Surgery performs a full range of procedures related to stroke prevention, repair of arterial aneurysms, lower extremity arterial reconstructions, and other vascular concerns such as vascular disease and varicose veins. Lahey's surgeons are experts in both traditional/open procedures as well as endovascular or less invasive approaches. They are also highly skilled in caring for patients with diabetic foot problems.

**Special Services:**
- arterial reconstruction of the legs
- carotid surgery
- aneurysm surgery
- arterial reconstructions

**Clinical Interests:**
- carotid disease
- aneurysms
- limb salvage
- esoteric arterial and venous problems
- other esoteric problems
  - carotid body tumors
  - mesenteric ischemia
  - brachiocephalic disease

**Diagnostic Capabilities:**
- a comprehensive, noninvasive vascular laboratory for diagnostic testing

The Asthma Center at Lahey Clinic is designed to assist primary care physicians in managing their own asthma patients. Our focus is on comprehensive evaluation, treatment and patient education for asthma patients whose conditions range from mild to severe.

Bringing together specialists from Pulmonary Medicine, Allergy and Immunology, and Pharmacy, we provide a team approach to the evaluation and treatment of asthma conditions. More specifically, our goals are as follows:

- to improve and maintain health and quality of life for children and adults with asthma
- to reduce the need for emergency treatment or hospitalization, thereby reducing the cost of managing asthma
- to improve asthma care by participating in clinical research
Specialists from the fields of neurotology, otolaryngology, audiology and vestibular rehabilitation work together at the Balance Center in concert with neurologists and neurosurgeons to provide a comprehensive and multidisciplinary evaluation and treatment program for patients and their families. Diagnostic resources include electronystagmography, rotary chair testing, computerized dynamic posturography and computerized gait analysis. Therapeutic resources include vestibular rehabilitation specialists trained and experienced in rehabilitation of dizziness patients.

Center staff work closely with referring physicians’ diagnosis and recommendations for a rehabilitation plan to be implemented at Lahey or elsewhere.
Lahey's Brain Tumor Clinic is based on a multidisciplinary approach to the evaluation and treatment of patients with benign and malignant brain tumors. Brain Tumor Clinic patients are cared for by a neurosurgeon, a neuro-oncologist, a radiation oncologist, a nurse practitioner and a social worker.

Our team of experts work together to provide each patient with comprehensive, specially individualized care. Patients are treated in a holistic manner to optimize their medical care and to meet their emotional and functional needs.

the Brain Tumor Clinic is held weekly on Fridays. In addition, members of the Brain Tumor Clinic team hold a weekly brain tumor conference, during which they collaborate with neuroradiologists and neuropathologists to make the most accurate diagnoses and to develop a customized treatment plan for each patient.
Cerebrovascular Disease Center

Phone: 781.744.2440
Fax: 781.744.5251

Carlos A. David, MD, Neurosurgery, Co-Director
Kinan K. Hreib, MD, PhD, Neurology, Co-Director
In Sup Choi, MD, Interventional Neuroradiology, Co-Director

Edward C. Tarlov, MD, Neurosurgery
Peter K. Dempsey, MD, Neurosurgery
Jeffrey E. Arie, MD, PhD, Neurosurgery
Richard A. Baker, MD, Diagnostic Radiology
Carl A. Geyer, MD, Section Head, Neuroradiology
Matthew E. Tilem, MD, Neurology
Thomas C. Piemonte, MD, Cardiovascular Medicine
Edward R. Jewell, MD, Chair, Vascular Surgery
Kevin B. Raftery, MD, Vascular Surgery
Harold J. Welch, MD, Vascular Surgery

Members of Lahey Clinic's Neurology, Neurosurgery, Interventional Neuroradiology and Diagnostic Neuroradiology departments work in close collaboration to provide our patients with the most comprehensive diagnoses and specialized, cutting-edge treatments for vascular disorders of the brain and spinal cord. The Cerebrovascular Disease Center offers a complete spectrum of therapies, both state-of-the-art microsurgery and minimally invasive endovascular surgery, enabling us to meet each patient's needs with the highest degree of quality.

The Cerebrovascular Disease Center has become a leading referral center for cerebrovascular diseases in the New England region. We are accessible at all times to physicians for consultation, referrals and transfers.

Special Services:

- medical management of stroke
- endovascular treatment of stroke by clot busting or clot retrieval
- cerebrovascular surgery for aneurysms, arteriovenous malformations, and intracerebral hematoma
- carotid endarterectomy and stenting
- endovascular treatment of aneurysms with advanced detachable coil system, including stents or balloon assisted techniques
- superselective occlusion of complex brain or dural arteriovenous malformations
- diagnosis and treatment of spinal cord or dural arteriovenous malformations
- diagnosis and endovascular treatment of vascular tumors of the head, neck and spine
Clinical Center for Cranial Base Surgery

At the Clinical Center for Cranial Base Surgery, we know how important it is to not only ensure accurate diagnosis and treatment, but also restore patients to their full appearance and function after surgery. Our team places great importance on maintaining a dialogue with patients' referring physicians. From initial consultation through hospital discharge and associated follow-up treatments, referring physicians are our partners in patient care. Our goal is to serve as a referral center for difficult cranial base problems—also called skull base problems—and return patients to their local medical communities as soon as clinically possible.

The center's multidisciplinary team includes well-known leaders in the fields of otolaryngology, neurosurgery, radiation and medical oncology, head and neck reconstructive surgery, interventional neuroradiology, and vestibular and rehabilitation medicine. We treat the comprehensive range of cranial base disorders, including lesions in all of the following areas:

- jugular foramen (glomus tumors)
- temporal bone
- infratemporal fossa
- cranio-vertebral junction
- orbits
- paranasal sinuses
- cavernous sinus
- parapharyngeal space
- advanced head and neck malignancies
- nasopharynx
- pituitary gland
- cerebello-pontine angle
- acoustic neuroma
- meningioma
- pituitary gland
Lahey Clinic's Comprehensive Breast Health Center, based at Lahey Clinic Medical Center and Lahey Clinic Medical Center, North Shore, offers services for every facet of breast health. Services encompass mammogram screening for early detection of breast cancer, treatment of breast problems, risk assessment, and diagnosis and treatment of breast cancer. Special units include mammography at both locations, the Risk Assessment Clinic, breast cancer support groups and multispecialty breast cancer treatment, comprising of breast cancer specialists from medical, surgical, radiation oncology, social service, and nutrition for comprehensive evaluation and treatment recommendations.
The Center for Cosmetic and Laser Surgery based at Lahey Medical Center, Lexington, combines multiple specialties in an effort to address the needs of a wide range of patients. Services range from breast enlargement and reduction, rhinoplasty, liposuction, facelifts, and eyelid and tummy tucks to body contouring after weight loss associated with bariatric surgery.

Physicians also specialize in noninvasive treatments, including facial rejuvenation, dermal fillers, advanced skin care, laser hair removal, broken blood vessels, spider veins, brown spots and hyperpigmentation of the skin.
Curt & Shonda Schilling ALS Clinic

Phone: 781.744.1270  
Fax: 781.744.5243

James A. Russell, DO, Neurology, co-director  
Gisela Held, MD, Neurology, co-director

Lahey Clinic is proud to partner with the ALS Association Massachusetts Chapter to offer a center of excellence for people living with ALS, commonly known as Lou Gehrig's disease. The purpose of the Curt & Shonda Schilling ALS clinic is to enable patients to maintain a maximum level of neurological functioning in a supportive and understanding environment. It is the only ALS Association Clinic in Massachusetts.

Patients diagnosed with amyotrophic lateral sclerosis (ALS) receive comprehensive evaluation and treatment in this program, which is staffed by specialists in neurology, physical therapy, speech and swallowing therapy, nutrition, nursing, occupational therapy, social work, and respiratory therapy. The clinic's goal is to maximize patient function, safety and comfort while also educating patients and their designated family members about new and current information regarding ALS and its treatment. Patients may be self-referred or may be referred by a neurologist, a primary care physician or the ALS Association. Patients with a suspected but uncertain diagnosis of ALS should be referred to the Department of Neurology for an initial evaluation.
The Endoscopy Unit at Lahey Clinic provides comprehensive gastrointestinal endoscopic service to our patients.

The unit is the setting for routine endoscopies such as colonoscopy for colorectal cancer screening and polyp surveillance, upper endoscopy for the evaluation of ulcers and acid reflux disease, and dilation of the esophagus for benign esophageal strictures. Additionally, we offer advanced endoscopic procedures, including endoscopic retrograde cholangiopancreatography (ERCP) for the evaluation and management of bile duct obstruction and gallstones, endoscopic ultrasound (EUS) for the diagnosis of gastrointestinal submucosal tumors and staging of esophageal cancer, treatment of gastrointestinal bleeding using the latest hemostatic techniques, and expandable stent placement for treatment of strictures of the esophagus, duodenum and colon.

Our active esophageal motility laboratory performs esophageal manometry, and both catheter-based and Bravo-capsule-based ambulatory esophageal pH monitoring.
Members of the Section of Hand Surgery have advanced training in all aspects of operative and nonoperative care for the problems occurring between the elbow joint and the fingertips. (Hand surgery is a regional specialty rather than a tissue specialty.) The Section of Hand Surgery includes surgeons and plastic surgeons with special expertise in hand surgery. Hand surgeons work closely with hand therapists in the Department of Occupational Therapy.

**Clinical Interests:**

- fractures of forearm and hand
- tendon disruptions
- carpal tunnel syndrome
- nerve entrapment syndromes
- arthroscopic surgery of the elbow and wrist
- arthritic reconstruction
- post-traumatic reconstruction
- tumors
- sports-related injuries of the wrist and elbow
Hearing Aid Center

Phone: 781.744.2613
Fax: 781.744.2879

Nancy Cohen, AuD, CCC-A, clinical director

Elizabeth Armitage, AuD, CCC-A
Lauren Anderson, MA, CCC-A
Guinevere Goulet, AuD, CCC-A
Jennifer Sherwood, AuD, CCC-A
Megan Wightman, AuD, CCC-A

Hearing loss is most common among older adults, but it can occur at any age, requiring the attention of a professional. The Audiology Section of Lahey Clinic's Department of Otolaryngology specializes in evaluating hearing impairments. Our audiologists use their professional skills and the latest technology to improve each patient's quality of life.

The Lahey Clinic Hearing Aid Center treats hearing problems in people of all ages. Our specialists can determine if you are a candidate for a traditional hearing aid or a new, implantable device, or if other treatment by a physician is indicated.
The Dr. Emanuel and Sheila Landsman Heart & Vascular Center at Lahey combines the expertise of multiple disciplines—Cardiovascular Medicine, Cardiovascular and Thoracic Surgery, and Vascular Surgery—to provide a full range of advanced services for patients with diseases of the cardiovascular system. Our multidisciplinary, comprehensive approach to care fosters an environment of open communication and collaboration that translates into life-saving patient benefits. Our patients benefit from focused clinics and innovative treatments such as radial artery catheterizations, robotic ablation and endovascular therapies.

The Landsman Heart & Vascular Center is recognized nationally and internationally as a center of excellence in the treatment of people with diabetes and heart disease due to our ongoing commitment to research in that area.

**Special Services and Areas of Clinical Expertise:**

- Anticoagulation Clinic
- Cardiac Prevention and Rehabilitation Program
- Heart Failure Clinic
- Lipid Clinic
- Pacemaker and Defibrillator Clinic
- Surgical treatment of thoracic and abdominal aortic aneurysms
- Evaluation and treatment of valvular heart disease
- Surgical treatment of complex coronary artery disease
- Minimally invasive coronary and valvular surgery
- Thoracic surgery for benign and malignant lung and esophageal disease
- Surgery for venous disease
- Evaluation and treatment of peripheral vascular disease, including percutaneous interventions of renal, carotid and peripheral arteries
- Percutaneous coronary interventions, including balloon angioplasty, coronary stenting and patent foramen ovale closures
- Diagnosis and ablation of atrial fibrillation and flutter
- Comprehensive evaluation, treatment and follow-up of coronary artery disease
Future Care Lahey’s International Medicine program caters to patients from outside the United States who may need assistance with appointment scheduling, interpreter services, local lodging and transportation, visa applications, and other details of their visit or medical care. The staff works with patients to evaluate their medical needs and arrange the most convenient schedule possible. With staff physicians and other clinicians from virtually every specialty available at Lahey, multiple appointments can be scheduled and coordinated with the ease of a single telephone call.

Lahey accepts the following international insurance plans:
- Aetna International
- American Life Insurance Company (ALICO)
- British United Provident Association (BUPA)
- Government of Bermuda Insurances
  - Argus Somers Isle
  - Bermuda Fire and Marine
  - Colonial Medical
  - Future Care
- Government Employees Health Insurance (GEHI)
- Health Insurance Plan (HIP)
- Hygeia Network
- Lady Cupid Compassionate Association (LCCA)
- Patients Assistance League and Service (PALS)
- Social Insurance
- War Veterans
- Health Network America
- Medavie Blue Cross
- Mondial Assistance
Lahey Clinic's Lymphedema Center offers a multidisciplinary team approach for the evaluation and treatment of lymphedema. The Vascular Medicine and Hypertension Department provides many specialists with expertise in vascular diseases, including lymphedema. The Department of Physical Therapy provides Vodder- and Lerner-trained therapists certified in the treatment of lymphedema.
Multiple Sclerosis Center

Claudia J. Chaves, MD, Neurology, director

Ann Camac, MD, Neurology  
Mary Anne Muriello, MD, Neurology

The Multiple Sclerosis Center at Lahey Medical Center, Lexington, brings together a unique, multidisciplinary team of specialists responsible for providing our multiple sclerosis (MS) patients with the highest level of coordinated, comprehensive medical care. The MS Center draws on specialists from fields including neurology, ophthalmology, urology, psychology, social services, physical therapy, physiatry, pain management, nursing and research.
Located at Lahey Clinic Medical Center, North Shore, in Peabody, the Center takes a multispecialty approach to the diagnosis and treatment of sexual dysfunction problems in both men and women. Services encompass medical, surgical and psychosocial parameters, with active research in medical therapies.
Sleep Disorders Center

Phone: 781.744.8249
Fax: 781.744.5609

Paul T. Gross, MD, Chair, Neurology, medical director
David A. Neumeyer, MD, Pulmonary and Critical Care Medicine, assistant director

W. Anthony Bohnert, MD, Pulmonary and Critical Care Medicine
Joel M. Oster, MD, Neurology
Akmal Sarwar, MD, Pulmonary and Critical Care Medicine
Ann Wilkinson, REEG/EPT, RPSGT, Chief Technologist

The Sleep Disorders Center provides evaluation and treatment of a wide range of sleep disorders, including sleep apnea, restless leg syndrome, insomnia, narcolepsy and other sleep disorders. Services include clinical consultation, all-night sleep tests and multiple sleep latency tests and CPAP Clinic. The center incorporates specialists from Neurology, Psychiatry, Otolaryngology, and Pulmonary and Critical Care Medicine.
Sophia Gordon Cancer Center

Phone: 781.744.8400

The Sophia Gordon Cancer Center offers a complete range of medical and surgical specialty departments that are extensively, and in many cases, exclusively involved in the care of cancer patients. Our significant core of board-certified cancer specialists includes hematologic oncologists, medical oncologists, radiation oncologists and surgical oncologists from various departments throughout Lahey Clinic.

Areas of Clinical Expertise and Research

- autologous stem cell transplant program
- brain and skull base tumors
- breast cancer
- gastrointestinal cancers (colon, rectal, pancreas, liver)
- gynecologic cancers (cervical, endometrial, ovarian)
- head and neck cancer
- hematologic cancers
- lung cancer
- skin cancer
- urologic cancers (bladder, kidney, prostate, testicular)
Based in the Department of Otolaryngology/Head and Neck Surgery, this center is concerned with the diagnosis and treatment of the full spectrum of speech, voice and swallowing disorders in adults, pediatric patients and professional voice users. These disorders include hoarseness; aphasia; stuttering developmental language delay; chronic cough; spasmodic dysphonia; laryngeal papillomatosis; vocal cord polyps, nodules and cysts; and vocal cord paralysis, as well as malignant lesions of the larynx and pharynx. Dysphagia or swallowing problems, whether they are secondary to neurologic dysfunction or functional problems related to aging, medical infirmity, or head and neck surgery or radiation, are another major emphasis. Comprehensive swallowing studies include traditional MBS (modified barium swallow) with the addition of cutting-edge technology including FEES (functional endoscopic evaluation of swallowing), FEESST (functional endoscopic evaluation of swallowing with sensory testing), and TNE (transnasal esophagoscopy).

State-of-the-art diagnostic tools for voice include laryngeal videostroboscopy and a technologically advanced voice laboratory to help analyze the many subtle components of voice before, during and after treatment. The center is staffed by a team of fellowship-trained laryngologists and speech pathologists along with consultants from a variety of other specialties such as pulmonary medicine, neurology, radiology, gastroenterology, allergy, and physical and occupational therapy, for a true multidisciplinary approach.
The Spine Center at Lahey Clinic is a multidisciplinary service comprising specialists in neurosurgery, orthopaedic surgery, rehabilitation medicine, interventional pain management, interventional neuroradiology and physical therapy. We treat patients who have a variety of acute and chronic spine problems. Surgical treatment options will be explored in detail. In the absence of clear indications for surgery, patients will be evaluated for physical rehabilitation and pain management interventions. Appointments are by referral only.
Lahey Clinic Medical Center, Burlington, offers an American College of Surgeons verified Level II Trauma Center, incorporating specialists in emergency medicine, anesthesiology, general surgery, orthopaedic surgery, critical care medicine, neurosurgery, vascular surgery and plastic and reconstructive surgery. Resources involved in trauma care include the Emergency Medicine staff, the Operating Room staff, the Intensive Care Units, Diagnostic Radiology and Interventional Radiology, Laboratory Medicine, and hospital nursing staff.
Clinic personnel provide necessary immunizations and guidance for prevention, health maintenance, and treatment of native illnesses acquired during short- and long-term travel to developing countries. Prevention advice includes a working knowledge of social and environmental concerns for the visited area. Backup is available 24 hours a day through our on-call system for the traveler while overseas. The most up-to-date diagnostic techniques (including a full parasitology lab) and treatment for post-travel medical problems, with specialty interests in viral hepatitis, leprosy and other tropical skin diseases, are also available.

The clinic also serves as a vaccine center for special groups such as those immigrating from other countries, expatriates living overseas, individuals needing vaccinations after organ transplants, and others desiring information about new and innovative vaccines. On-site service for corporate groups is also available.

See the Department of Infectious Diseases for more information.
